	Address	Academy for International Business Officials (AIBO), AIBO Road, Changping District, Beijing, China
About the Organizer	<p>The Academy for International Business Officials (AIBO) is an educational and training institution directly under the Ministry of Commerce of the People's Republic of China. Established in 1980, AIBO is located in Changping District, Beijing, about 30 kilometers from Beijing Capital International Airport. It boasts comprehensive infrastructure to provide services such as accommodation, catering, training and meetings for trainees.</p> <p>One of the main responsibilities of AIBO is to implement human resources development and cooperation projects, especially training courses for officials. The Academy serves as the main base for China's foreign aid training, offering both off-line and on-line training in China and overseas.</p> <p>Backed by the Ministry of Commerce and in close cooperation with China's top think tanks, research institutes and universities, AIBO brings together a large number of China's top experts and scholars to provide intellectual support for foreign aid training. It has developed a number of high-quality foreign aid training projects in the fields of trade and investment, international economic cooperation, governance and public management, which have proved to be fruitful.</p> <p>Since 1998, AIBO has successfully held over 2,000 training sessions for officials from developing countries (including 131 ministerial seminars), benefiting nearly 70,000 trainees from other developing countries around the world.</p> <p>AIBO will adhere to the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and take the important concepts, including a community with a shared future for mankind, pursuing the greater good and shared interests, and sincerity, real results, amity, good faith, mutual benefit and inclusiveness, as strategic guidance and fundamental principles to be followed. It will facilitate the joint efforts in implementing major initiatives such as the "the Belt and Road" Initiative and the Global Development Initiative, and continue to help developing countries accelerate their development by sharing China's experience and programs.</p>	
About the Project	<p>Background: Energy is an important material foundation and driving force of human civilization and progress, and it is essential to people's wellbeing and national security. In today's world, we have seen the further development of a new round of scientific revolution and industrial change, close integration between new energy and information technology, and the faster transformation of the mode of production and our lifestyle into low-carbon, intelligent mode, and energy system and development mode are in a new stage dominated by non-fossil fuel energy. Accelerating the development of the energy system is the inherent requirement of safeguarding national energy security and also provides an important support for high-quality economic and social development.</p> <p>China is working to shape the concept of a community with a shared future for mankind and helping the full and green transformation of social and economic development. For one thing, it makes efforts to promote its own clean and low-carbon energy, for another, it proactively participates in global energy governance and continues its efforts to support talent cooperation and cultivation with related clean and low-carbon energy technologies such as renewable energy, power, nuclear power and hydrogen, and seeks a new pathway of advancing sustainable development of the global energy together with developing countries.</p>	

	<p>Purpose: This seminar aims to introduce the development experience of clean energy and new energy in China to the seminar officials through the exchange and discussion of ideas, and determines the approach for developing countries to promote cooperation on the subsequent green development under the new situation and to boost sustainable development.</p> <p>Content: The seminar will mainly focus on the overview of China's national conditions, a community with a shared future for mankind, global development initiatives, Chinese leaders' concept of governing the country, China's reform and opening up and the path to Chinese modernization, China's green energy development, low-carbon development strategies and practices, present status and outlook of power generation technologies by new energy and international cooperation on the green development.</p> <p>Methods: We sincerely invite experts in China's clean energy, new energy and related fields to give lectures for the officials according to the topic; organize exchanges between participants and experts, as well as between participants; organize field visits to relevant green energy enterprises in Beijing and other cities.</p> <p>(The above is a preliminary schedule, which may be adjusted based on the actual situation. The final version will be provided after your arrival in China.)</p>
Notes	<ol style="list-style-type: none"> 1. Please prepare your passport, Chinese visa and third-party transit country visa (if necessary) before coming to China. 2. If participants cannot depart on time due to special circumstances, or if there is a flight delay during the transfer, please contact the Chinese embassy or the organizer in time and inform the latest flight No. and time of arrival in Beijing so that we can arrange pick-up for you. 3. In principle, it is not allowed for individuals to change their tickets to China. If you really need to do so, please contact the Chinese embassy and follow the procedures to change your ticket. Participants who change their tickets without consent will be notified to the Chinese embassy and the costs and responsibilities therefore incurred shall be borne by yourself. 4. After picking up the luggage, please wait patiently at the international arrival exit (or domestic arrival exit) and the organizer will pick you up with a pick-up board with your name on it. If waiting for more than 15 minutes, you can communicate with the organizer by phone. 5. In case of lost baggage so you need to register the loss procedure with the airline, please first communicate with the organizer to confirm the baggage delivery location and then fill in the registration form. 6. Dress code: Participants should pay attention to the weather conditions during the seminar and bring appropriate clothes. Participants should wear formal clothes (national costumes are also acceptable) for important activities in the seminar.
