

Seminar for Machinery Industry Management Officials under the Global Development Initiative

Name	Seminar for Machinery Industry Management Officials under the Global Development Initiative		
Organizer	Jilin University		
Time	2024-05-15 -- 2024-05-28	Language for Learning	English
Invited Countries	Developing Countries		
Number of Participants	25		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; under 50 for officials at director general's level.	
	Health	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant.	
	Language	Capable of listening, speaking, reading and writing in English during the training	
	others	Family members or friends shall not follow	
Host City	Changchun city, Jilin Province	Local Temperature	10~22°C
Cities to visit	Shanghai city	Local Temperature	18°C~22°C
Notes	<p>1. Participants should pay attention to local temperature and prepare suitable clothes and articles for daily uses for spring;</p> <p>2. Participants must prepare valid passports and visas before departure. If you are unable to depart on time due to special circumstances, or if there is a flight delay during a transfer, please contact the project contact person to inform them of the latest flight status.</p> <p>3. Participants are not allowed to change any flight tickets by themselves. If necessary, participants should contact economic and commercial counsellor's office of the embassy of China in their countries. All expenses and consequences caused by any ticket change without consent shall be borne by participants themselves.</p> <p>4. Please make sure whether you need to re-check in your luggage during the transfer process; When you arrive at the destination airport, after picking up your luggage, please wait at the international (or domestic) arrival exit, our staff will pick you up with a pick-up tag with the organizer written on it. If waiting for more than 15 minutes, please communicate with the project contact person by phone.</p> <p>5. In case of baggage missing, participants should contact our staff to confirm the address for baggage delivery before filling in the registration form at the airport.</p>

About the Organizer	<p>Jilin University(JLU) is a national key comprehensive university under the direct administration of Ministry of Education in China. Located in Changchun, Jilin Province, the university was founded in 1946. In 1960, it was listed as a national key university. In 1984, it was one of the 22 universities initially granted the permission to admit postgraduates. It is one of the few universities being included in the list of the “Project 985” key construction universities and the first batch of the universities for building world-class universities in the “Double World-class Initiative”.</p> <p>JLU has always been adhering to the motto of “Practicality and Creativity, Encouragement and Self-reliance”, insisting on the developing through strengthening academic capability, talent cultivation, innovation development, inclusiveness and culture building, and endeavoring to become an important base for the cultivation of high-quality and innovative talents, high-level scientific research and achievement transformation, high-quality social service, high-level international exchange and cooperation and advanced cultural leadership. It also aims to become a university that allows students to develop in an all-rounded way that faculty and staff can be proud of and that is highly praised by society and widely recognized by the world. By the 100th anniversary of its founding, Jilin University will strive to build itself into a world-class university with Chinese characteristics.</p> <p>JLU offers a wide range of disciplines, within 52 colleges or schools, covering 13 academic categories, namely, philosophy, economics, law, education, literature, history, science, engineering, agriculture, medical science, management, arts and interdisciplinary disciplines. JLU has 140 bachelor degree programs, 56 first-level authorized master degree programs, 48 first-level authorized doctoral degree programs, 7 authorized bachelor degree programs, 36 authorized master degree programs and 9 authorized doctoral degree programs for emerging interdisciplinary disciplines. It also has 48 post-doctoral research stations. Its 19 disciplines rank in the top 1% of the ESI, 5 of which disciplines are in the top 1‰.</p> <p>JLU boasts outstanding faculties. There are 6,356 faculty members in total, including 2,476 professors. There are 12 members of the Chinese Academy of Sciences or the Chinese Academy of Engineering, 7 senior professors of philosophical and social sciences, 39 externally employed distinguished advisors, 20 members of the assessment group of the Academic Degrees Committee of the State Council, 7 national-level outstanding teachers, 30 experts in the National “Hundred-Thousand-Ten Thousand Project”, 42 winners of the “National Outstanding Youth Fund”, 56 winners of the “National Excellent Youth Fund”, and 152 faculty members selected as “Changbai Mountain Scholars” in Jilin Province.</p>	

	<p>JLU is now home to 6 state key laboratories, 1 national engineering laboratory, 6 national-local joint laboratories, 1 national engineering and technology research center, 4 international science and technology cooperation bases, 1 national base for applied mathematics, 6 humanities and social science key research bases under the Ministry of Education, 12 key laboratories under the Ministry of Education, 6 engineering research centers under the Ministry of Education, 2 joint laboratory of international cooperation under the Ministry of Education, 4 joint collaborative innovation centers under the Ministry of Education and that of Jilin Province, 1 field science observation station under the Ministry of Education, 1 innovation center under the Ministry of Education for basic medical research, and 25 key laboratories under other ministries of China. JLU has undertaken a great number of research projects at both national and provincial level, generating considerable scientific achievements with good prospects for industrialization and technological advancement.</p> <p>JLU has established a complete high-level talent cultivation system of bachelor degree, master degree and doctoral degree. There are 75,363 students (72,033 full-time and 3,330 part-time) enrolled in the university, including 149 preppies, 41,853 undergraduates, 22,785 master degree students (19,928 full-time and 2857 part-time), 9,608 doctoral degree students (9,135 full-time and 473 part-time) and 965 international students.</p> <p>Focusing on the cooperation with the world's leading universities to improve its global cooperation network, JLU has established cooperative relationships with 308 universities and research institutions in 42 countries and regions. Among them, 50 are ranked as top 100 of the world and 71 are world top 200 universities. The university has built 45 international cooperation platforms with universities and research institutions in 12 countries.</p>
Seminar Content	<p>Entrusted by the Ministry of Commerce of the People's Republic of China, Jilin University (JLU) will hold the Seminar for Machinery Industry Management Officials under the Global Development Initiative from May 15 to May 28, 2024. Participants of the seminar are supposed to be officials, heads or directors of machinery industry management departments from African countries. The language of instruction for this seminar is English, and participants are required to be proficient in English.</p> <p>The seminar will be carried out in lecture-based training, and will be supplemented by practical exercises and cultural experience, aiming at introducing and sharing the management experience of the machinery industry in China and other developing countries, discussing the possible problems and issues in the process of management. The seminar will explore the management practice together in a multilateral, integrated, shared, and interactive mode of exchange and learning. The main lectures include the development trend of CNC(Computer Numerical Control) machine tools, the foundation of advanced manufacturing technology, lean production, engineering economy, machinery industry and environment, the role of heavy machinery in the development of national economy, modern precision instruments, and overview of China's heavy machinery industry, etc. The lectures aims to enable the participants to understand and grasp the status quo of the development of China's machinery industry and innovations so as to lay a good foundation for the improvement of the technology and efficiency of the machinery production.</p>

	<p>The seminar will also arrange various interactive activities, such as lectures, exchanges and talks, visits, etc., to share the development and application of mechanical engineering technology in different countries, and at the same time, jointly discuss the challenges that need to be dealt with in the process of technology development in various countries. Through mutual exchanges and learning, the seminar will further expand the international vision of the participants, strengthen their communication and mutual understanding as well as lay a good foundation for better cooperation in the future.</p>
