<p>About the Organizer</p>	<p>The Academy for International Business Officials (AIBO) is an educational and training institution directly under the Ministry of Commerce of the People's Republic of China. Established in 1980, AIBO is located in Changping District, Beijing, about 30 kilometers from Beijing Capital International Airport. It boasts comprehensive infrastructure to provide services such as accommodation, catering, training and meetings for trainees.</p> <p>One of the main responsibilities of AIBO is to implement human resources development and cooperation projects, especially training courses for officials. The Academy serves as the main base for China's foreign aid training, offering both off-line and on-line training in China and overseas.</p> <p>Backed by the Ministry of Commerce and in close cooperation with China's top think tanks, research institutes and universities, AIBO brings together a large number of China's top experts and scholars to provide intellectual support for foreign aid training. It has developed a number of high-quality foreign aid training projects in the fields of trade and investment, international economic cooperation, governance and public management, which have proved to be fruitful.</p> <p>Since 1998, AIBO has successfully held over 2,000 training sessions for officials from developing countries (including 131 ministerial seminars), benefiting nearly 70,000 trainees from other developing countries around the world.</p> <p>AIBO will adhere to the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and take the important concepts, including a community with a shared future for mankind, pursuing the greater good and shared interests, and sincerity, real results, amity, good faith, mutual benefit and inclusiveness, as strategic guidance and fundamental principles to be followed. It will facilitate the joint efforts in implementing major initiatives such as the Belt and Road Initiative (BRI) and the Global Development Initiative (GDI), and continue to help developing countries accelerate their development by sharing China's experience and programs.</p>
<p>About the Seminar</p>	<p><b>Background:</b> With the rapid rise of digital economy, the world is forging ahead towards the era of digital economy supported by the Internet of everything and data platforms. To facilitate a sustainable development path with core competitiveness for the construction industry, it is necessary to update, transform and upgrade the whole industrial chain under the leadership of digital technology and the effective support of information means, with new construction industrialization as the core through the deep integration of greening, industrialization and informationization. At present, there is an urgent need for the international community to join hands, follow the development trends of informatization, digitalization, networking and intelligence, profoundly grasp the development trends of human society entering the information age and moving toward digital civilization, and fully understand the importance and far-reaching impact of creating a good digital ecology in the construction industry.</p> <p><b>Purpose:</b> Digital ecology is highly globalized, and open cooperation and mutual benefit are the important connotation of creating a good digital ecology. China has been actively participating in international cooperation on digitalization in the construction industry and is willing to work with other developing countries to shoulder the historical responsibility of making progress for mankind, and build a digital cooperation pattern in the construction industry, making the digital civilization in the construction industry benefit all peoples. This Seminar aims to help developing countries cultivate construction talents with digital skills, improve the digital capacity and level of the construction industry, and promote high-quality development and the construction of a community of a shared future for mankind.</p> <p><b>Content:</b> The topics of the Seminar mainly includes the overview of China's national</p>
