About the Organizer	<p>Wuhan Research Institute of Posts and Telecommunications (WRI) is one of the two research institutes directly under Ministry of Posts and Telecommunications (predecessor of Ministry of Information Industry). It's one of the two foreign-aid training bases — communication training bases of Asia-Pacific Telecom Union (APT) — under Ministry of Industry and Information Technology, and the only qualified foreign-aid training base under Ministry of Commerce in the field of communications. In 2018, WRI (FiberHome Technologies Group)and Datang Telecom Group restructured and merged into China Information Communication Technologies Group Corporation (CICT). Now the company is the birthplace of China's optical communications, one of the main proposers of international standards for mobile communications, and is an internationally renowned provider of information and communication products and integrated solutions.Its business focuses on the following aspects:Optical Fiber Communication/Mobile Communication/Optoelectronics and Large Scale Integrated Circuits/Data Communication/Network Information Security/Intelligent Application.</p> <p>On April 26, 2018, President Xi Jinping visited our group company again and encouraged employees that core technologies and key technologies must be based on our own.On September 14, 2020, Han Zheng, Vice Premier of the State Council, visited our group company and encouraged the enterprise to maintain its focus, give full play to its potential, continue to grow stronger, better and bigger, enhance its competitiveness in the international market and expand the strength of Chinese manufacturing.</p> <p>Since 1994, authorized respectively by Ministry of Commerce, Ministry of Information Industry, Ministry of Foreign Affairs and Ministry of Science and Technology, WRI has organized more than 100 foreign-aid training projects, with about 5000 participants from over 100 countries of 5 continents. For more than a decade, WRI has been actively exploring new ways and integrating research into practice. The number of foreign-aid training programs administered by WRI has increased from one to more than 40 per year. WRI has become capable of organizing seminars for officials at department/division level. The seminars last from 10 days, 20 days to 3 months, offered in either English, French, Russian, Arabic , Spanish and Portuguese.</p> <p>Nevertheless, we will continue to make efforts and fully exploit our strengths and experience in terms of communication technologies and foreign-aid training so as to conduct characteristic, high-level and influential training projects, and make greater contribution to the implementation of national economic trade strategies of all countries.</p>	
Seminar Content	<p>The Main Content of the seminar is as below:</p> <p>1.Main Content of Seminar:</p> <ul style="list-style-type: none"> - Introduction to national conditions in China; - Development experience of China's communication network construction; - Business development experience of Chinese operators; - The development trend of communication technology in China; - The application of 5G mobile communication technology in the construction of next-generation communication networks; - RFID technology and applications; - Artificial intelligence technology and application; - Internet of Things information security; - Optical fiber communication technology and its application in the construction of next-generation communication networks; - Big data and its application in the construction of next-generation communication networks. <p>2.Visiting</p> <ul style="list-style-type: none"> □1□ visiting will be arranged in CICT group company to learn about the application of next generation communication network construction, to understand the development status and experience of next generation communication network construction in China. □2□ visiting will be arranged in 5G Smart Factory to learn about the application of 5G in next generation communication network construction. <p>3.Materials to be prepared by trainees</p> <p>The participant need to prepare a country report (PPT version) . The content of the country</p>	

	report shall include: <input type="checkbox"/> the basic information of your country <input type="checkbox"/> the basic information of the next generation communication network construction of your country, and submit it to the organizer before the end of the seminar.
