About the Organizer	<p>The International Poverty Reduction Center in China (IPRCC) was established in May 2005 as an outcome of Shanghai Global Conference on Scaling Up Poverty Reduction in 2004. IPRCC was jointly initiated and established by the Chinese government, the UNDP and the World Bank. It is designed as an international platform for research, training, exchange, collaboration and knowledge sharing in poverty reduction. IPRCC is committed to the internationalization of China's poverty reduction experience, as well as the localization of global experience, so as to forge an integrated platform for poverty reduction and development. Since 2005, IPRCC has successfully held 159 international seminars on poverty reduction, which have been participated in by 4,233 government officials and poverty reduction practitioners from 136 countries. IPRCC has developed a training textbook titled "Ten Keys to Understanding China's Poverty Reduction" as well as video textbooks and micro video cases on international poverty reduction. In the central and western regions in China, 15 provinces have been identified as "China Poverty Alleviation Exchange Bases". Participants can be arranged to visit the bases to learn about the effectiveness of poverty alleviation policies and practices. IPRCC also has an international training team that understands business, knows foreign languages and has high quality. At the same time, it has compiled and printed the international training manual for poverty reduction, which has strengthened the standardized management and promoted the high-quality development of project implementation. IPRCC has two training classrooms, each covering an area of 120 square meters. In 2020, it organized multiple online international poverty reduction exchange activities, demonstrating its capacity of providing necessary venues and equipment for online training. IPRCC's official website: http://www.iprcc.org.</p>	

Seminar Content	<p>The theme of the seminar is "Social Security and Poverty Reduction", which mainly focuses on making a sound social security system, and realizing the strategic planning, policy formulation and implementation of sustainable poverty reduction, shows the policy measures, implementation models, as well as experience and inspirations in strengthening social security, eliminating economic, social and natural risks, and promoting sustainable poverty reduction, analyzes the problems and challenges faced by developing countries in strengthening social security and improving their strategic systems of poverty reduction, and explores ways and measures to improve social security mechanisms, adjust economic and social development models and promote sustainable poverty reduction.
