Brief Introduction of Organizer	<p>1. International Health Exchange and Cooperation Centre, National Health Commission, P.R. China (IHECC) is an independent legal entity, directly led by NHC, specializes in international exchange and cooperation in the field of health. It is responsible for organizing research on the theory, policy and development strategy of international cooperation in the field of health and providing policy suggestions and technical advisory services on legislation, government decision-making and regulation planning. The Center drafts operational regulations and technical specifications for international exchanges in health industry, undertakes international health care assistance projects, carries out charity health cooperation projects both in and outside China, and strives to promote global cooperation for the development of health industry. The Center has been undertaking foreign aid training programs of MOFCOM for 14 years. It finished 62 programs, receiving 1,321 trainees from more than 60 countries and regions. Based on the principles of "using the best resources" and “multi factor, multi benefit, all links and long-term development, the Center conducts foreign aid training in health and share the comparative advantages and the best practices of China's health industry with students from other countries.</p> <p>2. As a public institution directly under the National Health Commission, the Center has close ties with various departments of the Commission, medical and health institutions, colleges and research institutions at all levels. It has an excellent team of teachers, who provide scientific and practical training courses that satisfy the different needs of students.</p>
